

TWO MEN HELD IN FIRE PROBE

Man Found with Face Burned in
Elyria.

TAKEN INTO CUSTODY
WITH HIS EMPLOYER

Police Believe Hootch Explosion
Causes Fire Resulting in
\$75,000 Loss.

Elyria, April 4.—Police are detaining two men in connection with the fire which today gutted two buildings, completely wiped out five business places, threatened to destroy the St. Paul's Evangelical church on one side and drove out eight families from a three-story brick apartment building on the other side. The loss is estimated at \$75,000.

The E. G. Davidson garage, Brown Battery company, Dallas Brothers electric store, Remy company and the Reed Furniture Manufacturing company were completely wiped out.

Mysterious Blast.

The fire, which consumed the two-story frame buildings occupying two-thirds of a block, followed an explosion and police are baffled that two buildings, although separated by a twelve-foot alley, both burst out in flames simultaneously.

Police in responding to the fire found a man whose face was burned. He was detained. The man said he had been burned by a gas explosion at his home. Several hours later the detained man's employer was likewise detained by police. The latter several months ago had been arrested on a charge of manufacturing booze and police are working on the theory that an explosion of a hooch still started the conflagration.

All the fire departments in the city battled for five hours from 2:40 this morning before the blaze was subdued.

CITY IN BRIEF

Plan All-Day Hike.—Plans for an all-day hike were made at the meeting of the members of Troop No. 2 Girl Scouts Monday afternoon at the church. A part of the time was given to signal practicing.

Three Building Permits.—Building permits issued by the city clerk Monday were as follows: James Dugan, residence, Orchard street, \$2,500; E. H. Evans, garage, west Columbia street, \$100; J. Ariz, porch, Bellevue avenue, \$65.

Will Appear in Play.—Miss Pearl Kinnert, a freshman in the arts college at Ohio State university, will take the part of Blanche in the play, "Triumphs," which will be presented by members of the Latin League Wednesday evening. An English translation of the play will be used.

Prepare Tax Bills.—County Treasurer B. J. Shelton has already prepared the tax bills and the June taxes which cover the last half of 1924 can be paid at the treasurer's office at any time. This early date for the payment of taxes will be a convenience to many taxpayers in the county.

Taken to Workhouse.—Robert Smith, giving his residence as Postville, who was arrested here a week ago Monday night and fined \$200 and costs on a charge of transporting intoxicating liquors, was unable to raise the fine and was taken to the Dayton workhouse, this morning, by Officer McIntire.

Suspends \$25 Fine.—Walter R. Brenner was arrested Monday afternoon on the affidavit of J. W. Hildreth who charged Brenner made threats against him. When arraigned before the mayor Brenner related his story of the trouble and was fined \$25 and costs, the fine being suspended pending good behavior.

Release W. M. Davis.—W. M. Davis, colored, arrested Saturday for investigation while trying to sell a new set of double barrel lines, was released this morning. The authorities at Mansfield stated that the lines were not stolen at that place and no reports were received from nearby places that a harness shop had been entered.

Charge Bogglus.—Frank Russell, giving his home as Cleveland, was arrested on east Church street this morning on a charge of begging. Russell has but one arm and by dis-

LIMBERS UP YOUR SORE STIFF JOINTS

WEATHER exposure and hard work bring pains and aches in muscles and joints. Have a bottle of Sloan's Liniment handy and apply freely. Penetrates without rubbing. You will find at once a comforting sense of warmth which will be followed by a relief from the soreness and stiffness of aching joints.

Also relieves rheumatism, eczema, neuralgia, sprains and strains.

For forty years pain's enemy. Ask your neighbor.

At all druggists—35c, 70c, \$1.40.

SOLONS TAKE UP DISMISSALS

Discharge of Bureau Heads Is Cause of Turmoil.

SENATOR WARMLY
DEFENDS PRESIDENT

Senator Caraway Thinks Act Is Illegal—The President Has Power in Such Cases.

Washington, April 4.—The senate was plunged today into a turmoil of political strife today when Republicans and Democrats clashed over the discharge in the bureau of political and espionage and Senator New, of Indiana, an administration spokesman, warmly defended President Harding from Democratic attacks led by Senator Caraway, of Arkansas.

Senator New replied to Caraway by saying the Wilson administration was "more flagrantly partisan than any other in the entire history of the country," and was one that "killed all the departments of the government with thousands of incompetents."

Caraway Counters.

Senator Caraway countered by asserting that President Harding was "guilty of complicity in a felony." He charged of irregularity in the bureau, which were printed in the Washington Times, "as an explanation of the summary dismissal of the bureau heads on Friday, were permitted to go unchallenged and undented."

It was stated officially at the White House this afternoon that no charges had been filed against the discharged bureau officials.

Under the constitution, it was pointed out, the president is the executive head of the government. It was said that the dismissals took place because of the executive's best "presidential judgment."

If there has been any conflict with the law in the discharge of these employees, it was stated that "due regard" would be taken of that fact.

DISCUSS CONDITIONS OF RAILROAD CROSSINGS

Letters from Erie and Prosecuting Attorney Read.

The condition of the railroad crossings in Marlee was again brought up for discussion at the meeting of the members of the Marion County Good Government association at the busy box dining room Monday night. Letters from the Erie railroad and Prosecuting Attorney P. W. Warner were read.

Mr. Warner informed the organization that the matter had time and again been brought to the attention of the state utilities commission without result, that body taking no action whatever. He declared his office willing to cooperate with any organization in an effort to compel the railroad to change conditions, but his hands were tied by the utilities commission. Six new members were enrolled.

Cord of Thanks.

We desire to express our sincere thanks for the assistance and sympathy extended to us during the illness and death of our beloved mother, Mrs. Marion Cowgill. To the Fraternal Order of Eagles, the Moose Lodge, the Big Four Railway employees and many friends we offer our thanks for the many beautiful flowers. We greatly appreciate the beautiful singing of Mrs. A. L. Wood and the comforting words of Rev. A. L. Schery. The Children.

Adv. 1p.

Mrs. Jennie Singer, of No. 614 east Farming street, has returned from a six months visit with her brother, Lieutenant George O. Barnsworth, of the United States navy, in Boston.

HENDERSON NAMED BY PRESIDENT TODAY

Appointed Second Assistant Postmaster General.

Washington, April 4.—President Harding today sent to the senate the nomination of Paul Henderson, of Chicago, to be second assistant postmaster general.

Henderson is a son-in-law of Congressman Madden, of Illinois.

Columbus Builder Dies.

Columbus, April 4.—A nervous breakdown caused the death here today of Charles F. Hunsberger, sixty-eight, prominent local builder of homes. For many years Mr. Hunsberger, a member of the Methodist Episcopal church, presented Columbus pastors and other Ohio clergymen with turkeys for their Christmas day dinners.

Progress Being Made.

Washington, April 4.—Progress is still being made in the negotiations looking to recognition of Mexico, but it is as yet impossible to forecast a definite time when recognition will be extended. It was learned officially at the White House this afternoon.

Helps digestion

—and cleans a coated tongue

Thousands of men and women have found relief from various digestive disturbances by eating Fleischmann's Yeast.

It is human nature to want to find out "why." So far as science can tell us this is the reason:

Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself. It promotes the flow of bile and of pancreatic juice. It has a remarkably beneficial effect on the whole digestive process. It cleans a coated tongue.

Keep your digestion in the pink of condition and your tongue clean and healthy by eating 2 or 3 cakes of Fleischmann's Yeast fresh everyday before or between meals. Reserve a Fleischmann's Yeast—the familiar loaf package with the yellow label. Place a standing order with your grocer today.

RAIL LABOR BOARD ANNOUNCES STAND

Will Not Barter Mine Wages for Lower Rates.

Chicago, April 4.—Vice Chairman Ben Hooper declared during the wage hearing before the board that the railroad labor board will not barter away the nation's railroad wages for lower rates.

"The board will consider only the elements named in the transportation act on which wages are to be based," said Mr. Hooper.

"It ought to be understood that the labor board will not put itself in the position of trading wages for prospective or already realized reductions of rates," the acting chairman continued. "The railroads have refused before the board their desire for lower wages, which they promise to translate into lower freight and passenger rates. The employees followed up that question. For what purpose, it was introduced. I don't know, but hereafter discussion of this subject should be strictly limited."

Mr. Hooper pointed out that the task of the board is clearly set forth in the transportation act and is to be dependent upon the rate fixing operations of the interstate commerce commission.

ENGINEERING SOCIETY HAS MONTHLY MEETING

Static Interferes with Radio Program.

About seventy-five members attended the monthly meeting of the Marion Engineering society in the dining room of the Marion Steam Shovel plant last night. The equipment for a radio program was furnished by the United Electric company and an aerial more than 100 feet long was constructed to receive the program. The program started exactly at 7 o'clock and began with market reports. These were quite audible. The address by Dr. E. R. Weddell, of the University of Pittsburg, was not quite so distinct, being interfered with by "static" as were the rest of the numbers on the program. The roving caused by the "static" was so great that the musical program was almost inaudible.

HOUSE LABOR BODY ACTS IN COAL STRIKE

Operators Asked To Meet Union Leaders.

Washington, April 4.—The house labor committee this afternoon stepped into the breach between the coal operators and the United Mine Workers of America in an effort to end the nation-wide strike which went into effect on April 1.

Telegrams were ordered despatched to operators in the central competitive field, representing approximately three-fourths of the coal production of the nation, asking them to meet officials of the miners' union for the purpose of negotiating a new wage agreement and ending the strike.

DEDICATE PROSPECT SCHOOL TOMORROW

Vernon M. Riegel To Deliver Principal Address.

Prospect, O., April 4.—Vernon M. Riegel, state school superintendent, and W. D. Hiles, assistant state school superintendent, will be the principal speakers at the dedication of the new high-school building here Wednesday evening. Music will be furnished by the High school orchestra. Members of the Prospect high school alumni will march in a body to the school building.

MISS MILDRED M'AFEE MARRIED AT DETROIT

Weds Dwight Buchanan, of Ashland.

Miss Mildred McAfee, daughter of Dr. T. H. McAfee, pastor of Trinity Baptist church, and Mr. Dwight Buchanan, of Ashland, were married Saturday, March 18, at Detroit. They were married by Dr. Emerson. Announcement of the wedding was made this afternoon by Dr. McAfee.

FARM BANKING SYSTEM IS PLAN

Bill Providing for Long-Term Loans Presented.

WOULD ESTABLISH
NEW CREDITS BODY

House Rejects Conference Report on Independent Offices Appropriation Bill.

Washington, April 4.—A bill introduced in the senate proposes the creation of a federal institution similar to a federal reserve bank system to provide long-term credits for farmers. The bill would set up an agricultural banking system, with regional districts and other attributes of the federal banking system.

Establishment of a "national agricultural credits corporation," to absorb the war finance corporation, with \$500,000,000 capital for a revolving fund, all to be subscribed by the government, was proposed under the bill. Loans would run from one to three years. The governing body would be a board of five members, headed by the secretary of agriculture, appointed by the president and confirmed by the senate.

The house put its foot down firmly on a proposal to pay salaries of \$35,000 to four shipping board officials, refusing by a unanimous vote to approve the conference report on the independent offices appropriation bill.

The bill would have authorized payment during the coming fiscal year of salaries between \$11,000 and \$25,000 to six employees in addition to the four who would receive \$35,000.

The rejected limitation had been agreed to by house and senate conferees as a compromise between the house provision that six officials could be paid between \$11,000 and \$25,000, but none more than \$25,000, and a senate amendment authorizing salaries in excess of \$11,000 with a maximum stipulated for not more than 12 officials.

After a round of criticism of the compromise limitation the conference report was recommended to the house managers with instructions to insist on a provision that no salaries in excess of \$35,000 be authorized.

THE RAILROADS

The Kent division safety committee of the Erie will meet in the office of the division superintendent Wednesday. Representatives of every line of work and department will be present.

E. C. Macken, No. 614 east Center street, superintendent of the Marion street railway, returned this noon from Columbus, where his father, J. E. Macken, of Millford Center, underwent an operation.

C. C. Martindill, No. 131 south Grand avenue, auditor for C. D. & M. Electric company, returned today from Columbus, where his mother, Mrs. C. C. Martindill, underwent an operation at the Homopathic hospital there. He returned this afternoon.

A. R. Tannis, division freight agent for the Erie in Marion, was in Columbus, today.

The force employed in the Big Four Railway shops at Bellefontaine has been reduced because of less traffic due to the coal strike.

The members of the B. of L. E. held a largely-attended meeting Monday evening and transacted considerable business. Plans were discussed for a social and entertainment to be held about May 15. The next meeting will be held in one week.

MISS MILDRED M'AFEE MARRIED AT DETROIT

REPRODUCES WOODEN BIER FOR CENTENNIAL

Frank Schaffner Has Copy of
Original Built.

IN USE AS LATE AS
THE EARLY FIFTIES

Before Horse-Drawn Hearse Is
Built—Carried by Four
Pallbearers.

Centennial year is bringing out
many things of interest to show the
development that has been made
since the earlier days of Marion's
history.

Older residents may recall the
mode of burial of those earlier
days, as late as the early fifties,
when the dead were carried to the
cemetery on a wooden bier by four
pallbearers but those of the later
generation have no remembrance
back of the horse drawn hearse of
yesterday. To show the earlier
customs Frank Schaffner, one of
Marion's funeral directors whose
father, the late Henry Schaffner,
was in the business before him, has
had constructed a reproduction of
the original bier used by his father
and other undertakers in the earlier
days.

This bier a copy of the original
will be on exhibition in the under-
taking parlors of the H. Schaffner

company. It is partly constructed
of oak seven feet long with handles
at each end like a barrow and a
flex supports making it the bier of
an ordinary chair.

Original Bier Lost.
The original bier used when the
late H. Schaffner was employed by
Stimuel Sater, father of the late
F. R. Sater, is supposed to have
been destroyed when the firm of
Fies, Schaffner & Dwyer dissolved
partnership in 1877.

Mr. Sater conducted a funeral
and undertaking business on south
Main street and at that time the
bier was made in the old cemetery on
quarry street, corners being carried
to the burial ground on biers as late
as 1882. But about that time the
one-horse hearse began to make
its appearance and before long re-
placed the bier as a funeral convey-
ance.

In those days when funerals were
held in the rural districts and the
distance too far to use a hearse,
a wagon was used. In summer and
sleets in winter, the family often go-
ing in the same conveyance with the
casket.

Minister Is Candidate.
Columbus, April 4. — A former
Methodist Episcopal minister, Pro-
fessor E. A. Hupper, Ohio Southern
university, has filed with Secretary
of State Smith his declaration of
candidate for the Republican nomi-
nation for lieutenant governor.

Mrs. Hugh Gibson, formerly Lu-
cille Nelson of this city, is enroute
home from India. She will land in
San Francisco, April 18, and after
visiting here for a time will contin-
ue on to England where she will meet
her husband who is enroute home
the other way. She has already
been on the way six weeks.

Approximately 130 Will Receive
Diplomas June 9

EXERCISES MAY BE
AT GARFIELD PARK

Rev. C. L. Allen To Deliver Com-
mencement Address—Pupils
To Wear Caps and Gowns

Harding High school this year
will graduate the largest class in the
history of the institution when ap-
proximately 130 pupils are given di-
plomas at commencement exercises
Friday June 9. This will exceed
the class graduated last year by
about twenty. It is expected that
the exercises will be held in the
Chautauque pavilion at Garfield
park.

At a meeting of members of the
senior class, Monday afternoon, it
was voted to hold the annual com-
mencement service at the senior Ex-
ecutive church and the service will
be held at 10 o'clock, Rev. C. L. Allen,
pastor of the church, Sunday even-
ing, June 4. The pupils also voted
to wear caps and gowns which gives
the class the distinction of being
the second in the history of the high
school to wear caps and gowns. The
class graduated last year was the
first. In Daniel Rittenhouse pa-
nor of the First Baptist church, Col-
umbus, will deliver the commence-

The JENNER Co.

SOCIETY

Spring flowers, bouquets of jonquils and lavender and sweet peas, beautifully decorated the table yesterday for the luncheon at which Mrs. W. L. Warner, president of the Woman's club, and Miss Grace Duffee, vice president, entertained the members at the closing season of the year.

The luncheon was given at the Templeton coffee shop and the company was seated at a long table, at which covers were placed for twenty-one, all members being present but one. At each cover was a corsage of the spring bloom, which was given as a favor. The lavender of the sweet peas carried out the club color. After an elegant menu the reports of the year were given by the secretary and treasurer, and the president gave a short closing talk.

Programs for next year were distributed and the Victorian program to be given was discussed.

The Council of Jewish Women held its monthly meeting in the Congregation of Israel rooms in the J. O. P. hall yesterday afternoon. After the regular business Mrs. Samuel Rosenberg gave a report of the eye examination in the public schools since the local Jewish council took it up about two months ago. Her report showed that there have been thirty-four cases requiring attention. Of this number the report stated the Women's Century club took care of three cases. Round Table club, two; Exchange club, five; Rotary club, four; Kiwanis club, eight, and the Council of Jewish Women will take care of the remaining twelve cases.

The physicians and opticians taking care of these cases did the work at the actual cost of the material used in furnishing glasses, asking no fee for themselves, the report stated.

The next meeting will be held the first Monday in May and will be the annual meeting with election of officers and yearly reports.

The O. B. club was entertained by Miss Eleanor Goodspeed, of North Grand avenue, last evening. Needlework and music were enjoyed and a contest held in which Mrs. Clarita Sidenstricker won the honors. Refreshments were served. The guests were Mrs. R. C. Alexander, Mrs. G. E. Goodspeed and Miss Geneva McMurray.

The next meeting will be held two weeks from this evening with Miss Nellie Goodspeed, of Fair-ground street.

CHURCH SOCIETY

Dr. S. D. Gordon's Talk.

"Tight Corners, Blind Alleys, and How To Get Out," was the subject of Dr. S. D. Gordon's "Quiet Talk" Monday evening at Spworth M. E. church. Although the night was rainy the attendance was very good.

Dr. Gordon endeavored to show his audience that there is a gate at the end of every blind alley, some way in which to escape if only one tried hard enough to find it and tries in the right way. He said there are two chapters in the Bible that talk about tight corners and blind alleys and these are the 37th Psalm of the Old Testament and the last third of the sixth chapter of Matthew, in the New Testament. He said Exodus might be called "tight corners and how to get out of them" and that in the New Testament the tight-corner book is Paul's four-chapter book of psalms, the book of Philippians. The keynote of this prison psalm is not long suffering or patience, but joy, and the singing of the name of Jesus, the speaker said.

"The Christian Bible is a book for blue Mondays, dreary Tuesdays and all the rest of the days of the week and if one gets in touch with Christ he will find the tight corners loosening," Dr. Gordon said. "There are three simple rules whereby these corners can be loosened. First, when you are in a tight corner and things go wrong, don't worry, don't be anxious, second, be thankful for everything and anxious for nothing, and third, be prayerful about everything."

"God runs the whole universe and His finger is on the pulse beat of your life. Do your best, do not shrink and leave the rest to Him and He will see that it goes through. Jesus knows everything about you, so learn to trust Him. There are two tugs of life, that of adversity and that of prosperity, both have tight corners."

Dr. Gordon will speak tonight at 7:30 o'clock on "Does Prayer Ever Change Anything?"

Whatever Circle.

The Whatever circle, King's Daughters, met with Mrs. Frank's Creston, of Forest street, last evening with Mrs. D. O. Weeks, the new leader, presiding. The circle voted to hold a hat sale early in June and Mrs. O. M. Young was made chairman of the committee in charge.

Mrs. Abigail Harding gave an interesting account of the life of "Elizabeth Fry." The relief committee reported seven calls made since the last meeting. The next meeting will be held April 25 at the church and the executive board will hold a session preceding the meeting.

Shower for Miss Hagerty.

Mrs. Frank Robinson was hostess to the members of Trinity society of Trinity Baptist church at a work meeting and shower Monday evening at her home on north State

street. The miscellaneous shower was in honor of Miss Ethel Hagerty whose marriage to Mr. Ted Bell, of Kansas City, Missouri, will take place April 16. A part of the evening was passed in making scrap books. Music and a social hour were enjoyed during the evening and the hostess, assisted by Miss Elton Spring, served refreshments. Guests of the sorority were Miss Cora Pausnough, of Delaware; Mrs. A. G. Lilley, Mrs. William Parland and Mrs. Ralph Hagerty. The sorority will meet in two weeks at the church.

PYTHIANS HOLD COUNTY MEETING IN CALEDONIA

Marion Lodge Team Gives Rank of Esquire to Two.

MOOSE PLAN ANNUAL MEMORIAL SERVICES

The Past Matrons' Association Meets—Practice for Lydia Chapter Anniversary.

About fifty Knights of Pythias of this city attended the county meeting at Caledonia Monday evening where the team from Marion Lodge, No. 402, worked the rank of esquire in the county being represented on two candidates. There were over 200 present, nearly all of the lodges. Most of the Marion members made the trip by train. The work was put on in excellent style and after the meeting a social hour was enjoyed and the Caledonia lodge served a lunch.

Moose Plan Memorial.

One application for membership was received at a largely-attended meeting of the Loyal Order of Moose Monday night. Plans were partly made for the annual memorial services to be held the second Sunday following Easter. The members who attended the meeting of John Stevens Legion, at Gallon, reported that the next meeting will be held in Marion June 4 at which time a large class will be initiated. The next meeting of the lodge will be held in one week.

Past Matrons Meet.

The Past Matrons' association held a meeting yesterday afternoon at the Masonic temple and the women made a comfort and practiced for past matrons' night at the twenty-fifth anniversary celebration of Lydia Chapter, No. 53, Order of Eastern Star, April 17. A dinner was enjoyed after which the members remained for the regular meeting of Lydia chapter.

The next regular meeting of the association will be held with Mrs. W. J. Fies, of south Prospect street, the first Friday in May.

Initiate Three.

Three candidates were initiated at the regular meeting of Lydia Chapter, No. 53, Order of Eastern Star, at the Masonic temple last evening. The chapter will celebrate its twenty-fifth anniversary at the next meeting April 17.

Confers Third Degree.

Koschko Lodge, No. 58, I. O. O. F., conferred the third degree on three candidates at a meeting last night in the Odd Fellows' temple. Two applications were received. Tickets are being sold which will later be redeemed for either steam or electric transportation to Columbus on April 26 to attend the Odd

Fellows' Jubilee. It is expected that about 300 from Marion will attend the celebration. The next meeting will be Monday, April 10.

Protected Home Circle.

A well-attended meeting of the Protected Home Circle was held in the Junior Order hall on west Center street last night. The drill team practiced, after which arrangements were made for an Easter social Monday, April 17, in place of the next regular meeting. Six applications were received.

Antlers' Club To Meet.

A meeting of the Antlers' club will be held Wednesday afternoon at 2 o'clock in the club-rooms of the Elks' temple on the third floor.

C. M. BURKETT INVENTS ROAD GRIP FOR TRUCKS

Crowd Witnesses First Test on Patten Street.

The first test of the emergency road grip and increased wheel contact, invented by C. M. Burkett, No. 3, Schoenlaub court, was made last night in the mire on Patten street and was very successful and entirely gratifying, according to those conducting the test. The emergency road grip takes the place on trucks filled by chains on passenger automobiles. Composed of ten blocks of wood cut to fit the wheels and joined by chains, it is a removable extensible tread for each of the back wheels.

At 6:45 o'clock last night with rain falling the test started, as the truck turned west on Patten street from Greenwood street and plowed into the mud for about 150 feet, finally stopping with the back wheels turning helplessly and all four wheels sunk to the hubs. The truck was one of the largest in the county, weighing nearly six tons empty. It was a Gramm-Herstein moving van.

A crowd gathered to witness the test. The inventor of the device with hip boots on arranged the road grips, lashing one end of the tread around the wheel and stretching the tread out to its full length in front of the wheels. Then the power was applied to the wheels and as if by magic the truck was lifted about six inches as the treads, twenty inches wide, climbed up on top of the ruts into which the wheels had sunk.

Backing was not quite as successful, as the special lashing which held the tread while going forward was not provided on the other end of the tread for reversing. Finally the treads were taken off the wheels and with one tread put on backward the monster truck backed out of the mud and on to the paved street again.

The test was witnessed by Byron E. Wilson, Marion, Padlock, who furnished the truck and Benjamin Jukes, a salesman. They are to be made in Marion.

A patent was applied for last week. Patten street was chosen for the test at the advice of the safety director, who was asked the location of the worst street in town. City trucks have to go down this street to dump rubbish and "Clean-Up" week was postponed two weeks, until April 15, because of the condition of this and other streets.

MRS. HANNAH PHILLIANS DIES AT DELAWARE

Mother of William C. and Dwight Phillians.

William C. Phillians, manager of Richman Brothers' clothing store, returned last night from Delaware, where he was called by the sudden death of his mother, Mrs. Hannah J. Phillians, widow of William P. Phillians.

Mrs. Phillians, who was seventy-two years old, was found unconscious in her home, No. 205 west William street, and died several hours later. Death was due to apoplexy, which caused her husband's death six years ago.

Mrs. Phillians was born in Fairfield county, but had lived in Delaware many years. She is survived by two daughters, Mrs. William Van Brimmer, of Warrensburg, and Mrs. John Cook, of Delaware, and five sons, Frank, of Mobile, Alabama; Harry E., of Columbus; Fred J., of Springfield; William C. and Dwight Phillians, of Marion. One daughter, Mrs. Clyde Raymore, died at her home in this city a number of years ago and a son, Edward L. Phillians, died in Fairbance, Pennsylvania, in 1920.

Mrs. Phillians was of that sterling character and so favorably endowed with attributes of grace her circle of friends was large.

The funeral will be conducted at the home of Mrs. Cook, her daughter, No. 65 north Washington street, Delaware, Thursday afternoon at 2:30 o'clock.

AN EFFICIENT MAN—Mental or physical efficiency is largely dependent upon proper liver action. No matter what else may be right, a sluggish liver means a dull mind and a stodgy body. Liver Pep Pills keep the river going right. At all druggists. Trial size, 25 cents.—Adv.-1.

See the new Presto-Vac Sweeper which has a continuous suction and requires no electricity. As easy to run as a carpet sweeper—as effective as an electric vacuum. Schaffner's. Adv. 110-3.

THE HUB OF COMMERCE.

Daily Proverb—"By a divine instinct, men's minds mistrust ensuing danger."

Beer was taxed over 2,000 years ago in Egypt. But it wasn't near beer.

And to think that fifty years ago Dr. Mary Walker shocked the country by appearing in public wearing men's attire!

If the British house of commons can not conscientiously give Lloyd George a vote of confidence, it should indicate somebody to whom it could give such a vote, if for no other reason than as an evidence of good faith.

Expert steel men are said to be able to tell how hot a piece of steel is by its color, but it doesn't take an expert to tell how hot some men get when they betray their true colors.

It may be a trifle hard to tell in advance whether the miners or the operators will lose as a result of the strike, but it doesn't take a seventh son of a seventh son to prophesy that the public will pay the freight.

The globe fish, an inhabitant of tropical waters, is said to be the only member of the fluy tribe that swims on its back. It must be a poor fish.

There's one certainty in connection with the proposal to insert a wet provision in the state constitution; it would place the cost of voting on the proposal on top of the heavy burden already carried by the tax-payer.

Senator Reed's course in connection with the four-power treaty is added evidence to the truth of the late Robert J. Burdette's contention that people talk most about that of which they know the least.

Some stars are so remote that it takes 40,000 years for their light to reach this earth. We mention that merely to show that there are some things really not worth worrying about.

Sales of chewing gum in England now amount to more than \$1,000,000 a year, and before the war chewing gum practically was unknown in that country. A close observer would suspect, naturally enough, that the sales of chewing gum in this country totaled near \$1,000,000 a day.

The fuel situation begins to look a bit scary. Senator Borah is advocating that the mines be operated by the government.

If it's all the same to the weatherman, he might pull the "fair and warmer" lever, if for no other reason than to afford us a change.

"What I would like to know," remarked the fellow who lives first door on the way down town this morning, "is how some of the champions of light wines know they would like them should they succeed in getting them back."

Government costs a lot of money, but the case of Russia goes to show that such cost is a mere bagatelle alongside what lack of it costs.

It's not so surprising, in the face of the orgy of waste and extravagance in which the country has indulged for years, that some members of congress should be unfriendly to the budget system. They apparently feel that squandering the people's money is their inalienable right.

Appropos of his rumored resignation, Lloyd George takes much the position of the small boy who asserted that "there ain't going to be no c-e-r left" of his apple.

Mr. Armour says that Europeans fix the meat prices. If that's the case the Europeans have been mightily busy engaged at the job for some time.

"Sometimes I have wondered if the prohibition law enforcement officials weren't slipping an eccentric by complaining about the tendency to joke about prohibition," observed the restaurant philosopher at luncheon today. "Nobody ever heard Henry Ford complain about the jokes directed at his river."

JAPAN AND THE COTTON INDUSTRY.

The rate at which Japan's cotton manufacturing industry has developed of late years is indicated by her imports of raw cotton, which in 1913 totaled 5,000,000 pounds, in 1919 over 1,000,000,000 pounds, and in 1920 about 1,000,000,000 pounds, while during the first ten months of last year they reached 985,000,000, or at the rate of 1,100,000,000 pounds a year.

What share did we have in that trade? In 1913 we exported to Japan 187,000,000 pounds of our raw cotton, or about twenty-one per cent of her purchases, in 1919, 119,500,000 pounds—forty-four per cent; in 1920, 236,000,000 pounds—thirty-three per cent, and last year, 561,000,000 pounds—forty-seven per cent. During the three years 1919-1921, inclusive, Japan took from us no less than \$250,857,653 worth of southern cotton. As a cotton customer she stood third on our list last year, coming first and Germany, second. In 1919 and 1920 she was second only to England as a purchaser of that staple.

Along in the forties the southern free traders were using the stock argument that we should ship our cotton to England and have it made up there, then let England return it in the form of manufactured goods which should be entered without the payment of duty. They insisted at attempts to develop the cotton textile industry in the United States, and cooperated with Cobden and the Manchester cotton manufacturers to destroy American initiative in that direction. The idea seems to have started with Hayne, Senator from South Carolina, who said in a senate debate:

"Now, if the cotton yarns manufactured at great falls were imported from England, instead of being made in New Hampshire, we should find the market for 12,000 bales of our cotton instead of 3,000." If trade was free, the goods manufactured in this country would be imported from England and paid for in our cotton, but in cutting off the imports, you, of course, to the same extent diminish our exports."

Well, today we have our cotton bolls all over the land, employing thousands upon thousands of workmen, and last year we exported 6,174,105 bales of cotton, or nearly 510 times the amount set by that intrepid statesman. And protection enabled that accomplishment so far as home manufacture is concerned.

But the argument of Hayne persists to this day among many out-of-date southern congressmen, who would willingly see the foreigners manufacture our cotton goods, and other goods as well. In 1919, Japan exported over 250,000,000 yam—the yen equals about fifty cents—in cotton textiles, compared with 35,000,000 yam in 1913. In 1920 the export reached 355,000,000 yam, but there was a falling-off in 1921 due to industrial depression and a revival of the British supply of cotton textiles in the far eastern trade. Exports of textile materials and manufactures represented 67.3 per cent of the Japanese export trade during 1921.

Fortunately, the section of the country which claims the majority of our free traders in congress is not in sympathy with their views on the subject, and the South today, with its splendid and rapidly-developing cotton plants, is as strong for protection as is the North. They have no desire to see such institutions as the Calloway mills of Georgia and the Parker mills of South Carolina made the victims of Japanese and English competition.

Naturally, one might expect an occasional dispute over an island named Wrangle.

It is something of a puzzle to figure out how traveling band and orchestra organizations can hope to secure financial support if the radio craze continues to grow. Who is going to pay out good money to go to a concert when he can remain at home and enjoy concert programs without cost?

DANGERS OF THE ICEBERG SEASON.

Practically all steamship companies operating vessels in the North Atlantic are on the alert for icebergs. The danger season for icebergs does not usually develop until late in April, but officials of the hydrographic office of the navy department have been notified of the appearance of these dangers of the deep in the danger zone's just south of the Grand Banks.

Since the Titanic disaster, the iceberg season has greater terror for seafaring men and for all those who make voyages across the Atlantic. The great glaciers, which are more or less river-like, flowing into the sea and terminating in bergs discharging ice cliffs, number more than thirty, according to scientists. Glaciers, therefore, are the parent of the iceberg. The most active glaciers discharge their icebergs at intervals of a few minutes with thundering roaring that may be heard five or ten miles away.

There are great glaciers in many parts of the world, but it is on Greenland and the South Polar lands that glacier ice reaches its grandest development. Save for a narrow interrupted strip around its shore, Greenland lies buried beneath a continuous mantle of ice thousands of feet in thickness. From this huge glacier pour into the sea, discharging icebergs of enormous size, some of which sail into the Atlantic hundreds of miles from home.

Until the iceberg danger is over, the United States government has adopted the system of having the hydrographic office direct the movement of all vessels going through the danger zone. Day and night, coast-guard cutters are scouting the sea. As soon as a berg is sighted the fact is wireless to the hydrographic office.

The government is doing everything it can possibly do to prevent a possible repetition of the Titanic disaster, which cost a total of 1,517 lives on April 14-15, 1912.

LET'S MAKE OUR CITIES BRIGHT AND CLEAN.

Marion's annual spring cleanup has been postponed until April 15 on account of the muddy condition of roads.

People will not have any excuse after that date for not cleaning up their premises. Many enterprising citizens will clean up before then, but the general cleanup will not come before April 15, as stated.

It is up to everybody to take a vigorous part in this year's cleanup movement. Women are the leaders in the cleanup campaign. In fact, they are the pioneers. The women do the housecleaning and it ought to be left to the men to clean up the premises on the outside.

Let's make everything bright and clean.

LIFE'S VAUDEVILLE.

[By Dr. James Ball Naylor.]

LAW—GOOD AND BAD.

We have those who insist that the only way to prevent all war is to have national disarmament—national disarmament in a real and absolute sense.

Initial steps, looking to that end, have already been taken.

A number of the greatest civilized powers of earth have solemnly agreed to limit the size of their navies.

Following this, the congress of the United States is clamoring for a further reduction in the size and efficiency of the American army and navy.

Is it wise—let us see?

What is true of individuals—is true of collections of individuals.

So let's consider.

New York state has a legal measure known as the Sullivan law. This law provides that no citizen may carry weapons. Other states—Ohio, for instance—have similar laws.

How do these laws operate, practically?

Do they help to prevent crime, to assure peace and security?

They do not. Let me repeat—they do not.

The law-abiding citizen commences with himself: "This is the law. I must respect it—must obey it. I must not take a gun or carry a knife."

And he doesn't, and he is defenseless.

The criminal considers: "To hell with the law—with all law! I violate other laws, I'll violate this one. I'll get a gun and carry a knife."

And he does.

Laws do not always operate as we intend them to operate—far from it. Laws can not, and do not, change human nature. We can not wipe out all vice and crime through legislation.

According to the Philadelphia Record, Marquis Beccaria, in the eighteenth century, gave to the world a dissertation on "Crimes and Punishments," and, in that treatise, he spoke of the reformers of his day as persons who would—

"Deprive men of the use of fire, for fear of their being burned; and of water, for fear of their being drowned; and who know of no means of preventing evil, but by destroying it."

He said:

"The laws of this nature are those which forbid citizens to carry arms, disarming only those who are not disposed to commit the crime which the laws mean to prevent."

How true!

And how well the Marquis' words fit us today!

President Harding said before a Bible class in Washington recently:

"Whatever breeds disrespect for the law of the land in any particular department of our community relations, is a force tending to the general breakdown of the social organization. If the people who are known as leaders, as directing influences, as thoroughly respected and respectable members of society, shall in their respective communities become known for their defiance of some part of the code of law, then they need not be astonished, if presently they find that the law in general comes to be looked upon as a set of irksome and unreasonable restraints upon the liberty of the individual."

Reader, cogitate that statement of our president—and get at its inherent meaning!

.....

Evidently the movie magnates have no fear that a days in the cinema atmosphere will hurt their attitudines or their films.

.....

Some women go with breasts bare in January—and some men wear coats in August. What fools we mortals be!

WHERE FAMOUS NATURALIST IS BORN.

The dedication of the old farm in the Catskill mountains, where John Burroughs was born, April 3, 1837, was more than a national event. It aroused worldwide interest, because John Burroughs, whose death is so comparatively recent, was known everywhere on the globe. Picking the date of his birth for the dedication of the old farm house was most appropriate. It was there that he first learned nature in all her moods. It was there that he first began to write—that he first discovered himself.

The personal element is very marked in all of the Burroughs writings, and the charm of his easy familiar style did much to popularize the study of nature.

As an essayist and naturalist, John Burroughs made an everlasting name.

.....

MORE THAN DOUBLES ITS MEMBERSHIP.

Rev. J. Byron Brice will go to his new charge at Plymouth, Indiana, with the good wishes of not only the members of his Forest Lawn congregation, but with the many outside his church who have formed his acquaintance since his coming to Marion about four years ago. He will take up his new duties in a larger field April 17.

.....

During the time that Rev. Mr. Brice has been pastor here he has built up the Forest Lawn charge from a mission to a church, having more than doubled the membership of the congregation. That is a record of which any pastor might feel proud.

.....

HOW TO ESCAPE FROM EVIL.

Because thou hast made the Lord,

which is thy refuge, even the Most High, thy habitation, there shall no evil befall thee, neither shall any plague come nigh thy dwelling. For he shall give the angels charge over thee, to keep thee in all thy ways.

—Psalm 91: 9-11

TWENTY YEARS AGO

George B. Christian, Jr., was nominated to be a member of the board of trustees of the Girls' Industrial home, at Delaware, to succeed the late H. Tristram.

The Gehlert Piano company was organized with a capitalization of \$125,000. H. Ackerman was named vice president of the company, which planned to build a factory here.

The first weekly shoot of the Marion Gun club was held at the fairground.

Members of Owen Gray Post, No. 274, G. A. R., Ladies, were planning to erect a post building.

The Pittsburgh orchestra, under the direction of Victor Herbert, played at the Grand theater.

DO YOU KNOW?

Do you know that the first man to be elected to office in Marion county were Elias Murry and David Tipton, both elected justice of the peace?

[Prepared by the Chamber of Commerce at the request of the Star.]

TODAY'S EVENTS

Tuesday, April 4.

Five years ago today the United States senate passed the resolution declaring a state of war with Germany.

Today marked the 175th anniversary of the birth of William White, chaplain of the continent congress and first Episcopal bishop of Pennsylvania.

Today municipal elections were conducted in numerous cities of Wisconsin, Missouri, Colorado and a number of other states.

The annual convention of the Indiana Federation of Music clubs opened at Indianapolis today and will continue until Friday.

Funeral services for Colonel Henry Watterson, the veteran Kentucky journalist who died in Florida last December, were held in Louisville today.

Hearings on the ship subsidy bill began today before a joint session of the senate committee on commerce and the house committee on merchant marine and fisheries.

QUILLEN PARAGRAPHS

The term "oil" starts many a turmoil.

The aftermath of war is intense application to higher math.

Don't pity the man with the hoe. He's probably after bait.

The only place where cats come before swat is in the dictionary.

Thank God, pedestrians don't have to lose time changing gears when chugging a speeder.

You can usually tell a resident of Easy street by the fact that he grunts when he bends to lace a shoe.

Credit for winning the war is immaterial; the essential thing is credit to keep it won.

As we compare official promises, we observe that John Bull differs little from the American brand.

The length of the cigarette holder seems to be in exact proportion to the paucity of wit behind it.

"The green of spring brings with it some element of pathos." Very unlike the long green of commerce.

They never say "master" of the sea, but always "mistress." This is also true of the matrimonial sea.

In this free land, no man is so great that you can not approach him and say "Gotta match?"

Paragaphers are not a heartless lot, and in the matter of Hollywood any of them would rather pen than punish.

There will always be men to express honest opinions without fear of consequences. The poor we have with us always.

Now if there's any emotion, activity or ambition that hadn't had a "week" dedicated to it, let it be this.

Phone 3155.FIGHT CARD AT ARMORY
DISAPPOINTS CROWDMain Co. Furnishes Five Rounds
of Real Fighting.BOWSER CLAIMS FOUL
EARLY IN SIXTH ROUNDJudges Award Decision to Mul-
laney—Bright Gets Semi-
Final on Foul.

[BY F. L. KRANER.]

While accidents frequently happen
on a card of a fight show, seldom do
they come in a bunch as they did at
the show of the Marion Athletic club
at the armory Monday night. As a
result a large crowd was disappointed
and what was the most expensive and
best promising show ever staged here
turned out to be the most unsatisfac-
tory.The fans were furnished five
rounds of real fighting in the main-
go by Don Bowser, of Lima, and
Eddie Mullaney, of Akron. Early in
the sixth Bowser claimed Mullaney
hit him low and said he could not
continue. Bowser did not discover
the loophole for an excuse to quit
until the referee stepped between the
fighters to warn Mullaney, who put
a very light right partly below the
belt line after he placed a hard right
under Bowser's heart. It was proba-
bly the latter blow that took all the
fight out of Bowser.Mullaney Big Surprise.
Mullaney, a pupil of Jim Schreck
who was formerly in the Dunn stable,
was a big surprise to the crowd and
showed some real class and boxing
ability above the average. In the
first round Bowser landed a hard
left on Mullaney's face and they ex-
changed some hard body punches. In
the second round Bowser landed
two hard lefts to the face and, after
both missed hard swings, Bowser
landed a hard right to the head and
when Mullaney missed a right Bow-
ser again put a hard left to the face.
Mullaney landed a left to the face as
the round ended and it looked as if
Mullaney would not last.In the third round Mullaney
started following Schreck's in-
structions and giving more attention
to his boxing ability. He soon demon-
strated that he was much superior
to Bowser in this style and he had
a shade on Bowser in the third. In
the fourth round Mullaney forced the
fighting and landed often on Bow-
ser's face and body, having the
latter hanging on the ropes and
making an effort to keep away, while
Mullaney cleverly ducked wild blows
aimed at him by Bowser with a view
to a knockout. It was Mullaney's
round by a big margin.Mullaney Gets Decision.
Both fighters were cautious dur-
ing the fifth round and a few blows
were exchanged, Mullaney being the
more clever and having the round
on points. In the sixth Mullaney
again started to force Bowser and
after planting a hard blow under the
heart, he put a very weak right a
trifle low and Bowser claimed he
was unable to continue. Physicians
made an examination and contended
that Bowser was not fouled or in-
jured, but he refused to continue
and the decision was awarded to
Mullaney, who well deserved it as
far as the fight went.The semi-final of eight rounds
between Milt Snyder, of Dayton,
and Johnnie Bright, of Akron, was
more disappointing than the main
go. Bright was considerably taller
than Snyder and the latter started
playing his opponents riffs with the
result that early in the first round
Snyder hit Bright twice below the
belt line and physicians after ex-
amining Bright stated he was un-
able to continue and he was given
the decision on a foul. This had
promises of being a classy battle,
both boys being fast.Carron Out of Class.
Jake Carron, local Greek, was
scheduled for eight rounds with Red
Young, of Lima. The fans were
quick to see that Carron was out of
his class and Carron himself un-
doubtedly realized it for he only
received a light blow to the face and
one to the body during the first min-
ute and then he dropped on his
hands and knees and waited for the
count of ten. Both left the ring
without a scratch or being warmed
up and Carron was hissed and jeer-
ed.The curtain raiser between Kid
Miller and Jim Eddington, both of
Marion, went the four-round limit
to a draw. Although it was a bat-
tle in earnest, it resembled shadow
boxing in the respect that about nine
out of ten blows aimed by the fight-
ers missed their mark, but the fans
were afforded much entertainment
and excitement by the bout and the
decision met with unanimous favor.

BASEBALL

Giants and White Sox Arrive.
Knoxville, Tenn., April 4.—The
Giants and White Sox arrived here
today ready to resume their series
of exhibition games. The world's
champions are only a shadow of
themselves at present. Frank Frisch
is out with an injured toe, Heinie
Groh is nursing a mashed finger,
Dave Hancock hasn't been with the
club for nearly a week because his
wife is recuperating from an opera-
tion, and Bill Ryan, second string
pitcher, has an injured hand.

NEW YORK YANKS
PLAYING POOR BALLTeam Apparently Has Very Poor
Opinion of Ability.EXPECTED TO RUN
WORSE THAN SECONDHope Is Expressed That Their
Present Attitude Is Only
an Attitude.New York, April 4.—According to
the good word passed along by a
man of indisputable authority, the
New York Yanks are now playing
the worst baseball of any major
league ball club in the south, those
two Philadelphia public charges not
barred.To this man's way of thinking, it
is evident that the Yankees have
managed to win the 1922 league
title somewhere in between the final
game of the last world's series and
the present moment, and apparently
they think very poorly of them-
selves, indeed.

As champions they figure to re-

peat this season, but as a group of
debonair clumps, they will run
worse than second as surely as car-
bolic acid is unpalatable.It is hoped for the sake of Miller
Huggins, that their attitude is only
an attitude and therefore merely
temporary. It is neither necessary
nor expedient for a ball club to play
at top speed in southern exhibitions.
However, there have been signs of
a decay what may be permanent.

THE WOMAN WHO SAVES

doesn't have to worry about where
to get the money for her Easter
outfit. She has it in the bank
where she can get it any time.
And she is both amazed and de-
lighted when she sees how her
small but regular savings have
accumulated. Why don't you begin
following her example?

MADE BY
H. FENDRICH
EVANSVILLE, IND.
ESTABLISHED 1875

Have you noticed any
modern headstones in
the cemetery? Here's
one you will read with
much feeling—
Alas, here lies poor
William Bone, a
bootlegger who
drank his own.
We take it from that,
Williams' Merchan-
dise would kill his
business—
Not so with ours
for our past
customers are alive
in more ways
than one—
especially in
knowing that we
sell that which
makes you look live
and classes you with
the best dressers.
Are you aware that
Sport Shoes are
being worn consid-
erably this Spring?
We have them.

IN THE WORLD OF THE RADIO

GOOD RECEIVING SET
CAN BE PURCHASED

The first and natural question of most new converts to radio are: "What outfit should I buy? How much will it cost?" Then they know nothing about electronics.

These first two questions are easy to answer at this time when so many efficient sets are either being sold complete or may be assembled with little difficulty.

Most of the advertised sets or radio appliances manufactured by responsible organizations have proven their worth. Sets may be now purchased in any large city ranging in cost from five dollars to several hundred dollars. Sets suitable for the beginner may be built at a cost ranging from one dollar up.

Therefore in their present highly developed stage and simplicity of operation, almost any standard equipment is suitable for the beginner. This equipment may be installed at a cost to suit any one's purse.

The beginner's next question is: "What can I receive and how?" At the present time regular programs of music, opera, lectures, news, etc., are being regularly broadcasted from a number of high powered stations in various parts of the United States. Once a set is properly installed all or part of these programs may be received without cost.

Few Restrictions. The next question that enters his mind is of the legal restrictions that may affect his station. The present wireless law is very liberal in regard to receiving stations. There is no law which forbids reception. Receiving stations may receive as much as they please, but certain messages, which may easily be classed as private and confidential, must not be made public by receiving operators.

There is no law except the operator's conscience that discloses just which messages are confidential and which are not. Legislation regarding transmission by amateur is now being considered by the secretary of commerce. Pending this consideration amateur stations are prohibited from broadcasting.

"How far can I receive with this or that outfit, my aerial being so high and so long?" is another common question.

Nobody can answer such a question correctly except the person operating the station. It is like asking the question: "How far away can I hear the steam whistle of the X and Y steel mills?" The answer would depend, first, how hard the whistle blows; second, on one's hearing; third, how the wind blows; and fourth how many and how great are the intervening objects between the whistle and the ear.

Some days a whistle may be heard two miles away, at other times only several hundred yards. It all depends. There is much in radio that "depends."

Location of Station.

As a rule the higher and bigger an aerial is, the better the wireless reception will be. But if you are 1,000 miles from a station that can send but 500 miles, it will not be heard, no matter how good the instruments of reception are. It is very much like trying to hear a sound of a whistle ten miles away that can at the very best and under exceptional conditions be heard only within a radius of five miles.

Here a person will answer many radio questions that seem complicated at the start but are very simple when reasoned out. It is also evident that the messages can not come in with maximum loudness unless the instruments are well in tune, and unless well designed instruments are used.

Thus a loose coupler will give louder signals than a small tuning coil. A great deal depends on the detector and its adjustment.

If a station is surrounded by high mountains or steep buildings, it will not receive messages as well as if it were on top of a mountain. Still in the vicinity of a station has a very detrimental effect.

Wireless waves travel twice as far over water as over land and twice as far between sandstone and granite as during the daytime.

Next to iron, copper is the most important metal in use.

HOW TO MAKE RADIO RECEIVING APPARATUS CHEAPLY

CARDBOARD TUBING— $\frac{1}{2}$ " THICK WOUND WITH B.S. No. 20 or 22 S.S. COVERED COPPER WIRE.

TAPS TO BE TAKEN OFF THE 1" TURN 8", 12", 16", 20", 24", 28", 40", 64", 100" AND THE LAST TURN.

BAKELITE OR HARD RUBBER SHEETING $\frac{1}{2}$ " THICK.

A simple radio receiver suitable to receive the radiophone broadcasts and telegraph consists of the following items, which will be treated separately.

1. An inductance or tuning coil by means of which the wave length of your set may be tuned to that of the station you desire to receive.

2. Crystal rectifier or mineral detector that will enable you to rectify or make audible the electro-magnetic wave carrying in your telephone receiver.

3. High resistance telephone receiver, the use of which enables you to hear the weak current rectified by the detector.

4. Fixed condenser across the receiver that stores up the weak currents and then discharges them through the telephone receiver.

Aerial is Essential.

5. Antenna, or aerial—A wire or wires suspended in the air and insulated from all surrounding objects being a part of the electrical system by which the electro-magnetic waves are sent or received.

6. Ground—May be a wire buried in the earth or an artificial ground may be a water pipe which completes the radio circuit.

The first item to consider is the tuning inductance or tuning coil. One that will give good results may be constructed as follows:

Material needed.—One cardboard one-eighth of an inch thick, three inches in diameter, six inches long; one-third pound of No. twenty or twenty-two B. S. single silk-covered copper wire; one one and one-half inch rubber switch; layer and hard rubber knob; twelve switch points; one wood base three-fourths of an inch thick; six and three-fourths inches long, four inches wide; one sheet of bakelite six and three-fourths inches long, four and one-half inches wide, one-eighth inch thick and drilled as shown; three nickel-plated posts; four wood screws to secure bakelite front to base as shown.

How To Start It.

After you have secured the above materials and with the aid of a screw driver, paint brush, hand drill and some orange shellac, take cardboard tube, give it a good coat of shellac, after it is dry punch small holes three-eighths of an inch from either end with a hand drill, pass wire through and tie. Allow about one foot to make connections. Wind eight turns, scrape a small amount of the insulation off and make your first connection or tap. [Note:—Use about six feet of wire and cut same into eleven equal lengths to use for taking taps off of the coil.] Be sure when taking taps from the coil that all connections are tight, soldered and taped. Take taps off the 12th, 16th, 20th, 24th, 40th, 64th, 100th and last turn. Be sure you have all connections soldered and taped, because you are working with very weak currents and can not afford to let any leaky conditions exist.

After you have the above work done shellac the windings. As this will help keep them in place and at the same time help keep the moisture away, thus warding off grounds. Take the hard rubber or bakelite sheeting and drill to take switch points, binding post and switch lever

as shown in the drawing. Drill three holes to take one-eighth inch wood screws as shown to secure bakelite front. Connect and solder taps, starting from the left, as illustrated. Secure coil to base with fibre strip and make connections as shown.

NOW SOLDIERS HERE
ARE TO HAVE RADIO

If present plans of the Ohio National guard materialize, orders and instructions from the adjutant general's office in Columbus will, within a comparatively short time, be broadcasted to the various companies by the Thirty-Seventh Signal Battalion, Columbus, radio-phones.

Next week Marion's Howitzer company will begin the installation of a Camp-Eustace radio outfit as a part of this general plan of the guard. The outfit will consist of an aerial, a receiving set and a practice set. The practice set will be for the purpose of developing a number of operators among the members of the company.

The installation of the sets is a training feature for the guardsmen. The signal outfit already is equipped with radio apparatus mounted on field trucks.

SOME RADIO FLASHES

Messages coming across the Atlantic by radio are too fast to be caught on this side by the operator. So an automatic recorder is used to take down the dots and dashes, as on a phonograph record. Then the operator can take his own time transcribing the message from this recorder.

Never touch the crystal with your finger when using a crystal detector. Moisture from your fingertips will cause a dith to form on the detector.

See the new Presto-Vac Sweeper which has a continuous suction and requires no electricity. As easy to run as a carpet sweeper—as effective as an electric vacuum.

BY THE EDITOR

Many requests have come to the radio editor for plans and diagrams for the construction of the various parts which go to make up a receiving set.

The editor advises those seeking this information to write to the Radio Laboratory, United States bureau of standards, Washington, D. C., for a copy of the pamphlet, "Construction and Operation of a Very Simple Radio Receiving Equipment," which contains detailed instructions with drawings and plans for such a receiving set. Ask for "Letter Circular 48 and L. C. 20." This pamphlet is free.

RADIO DICTIONARY

Watch This Column Every Day. It Will Help You Understand the Terms Used in Radio.

CIRCUIT, SHORT—The crossing of two wires to form a shorter path for an electric current.

CONDENSER, MICA—Condenser with mica sheets used for insulation.

CONDENSER, GLASS—Condenser with glass plates used as insulation.

DAMPED OSCILLATIONS—Alternating electrical impulses that gradually weaken and finally die out.

DIAPHRAGM—The thin metal plate used in telephone receivers. This vibrates in sympathy with the currents passing through the telephone.

DIELECTRIC—An insulating substance. Glass, for instance. The plates of an electrical condenser are always separated by a dielectric. Air is sometimes used.

DIRECT CURRENT—A current flowing continuously in one direction.

DISCHARGE, ELECTRIC—Electric current discharge from a cell, battery or condenser.

EAGLES HERE TO HEAR
RADIO IN NEAR FUTURE

Installation of a Westinghouse radio outfit for Buckeye Aerie, No. 337, P. O. Eagles, was begun yesterday. The set will be equipped with a powerful amplifier which will enable members of the lodge to hear concerts or hold dances with radio music.

RICHWOOD CAGE FIVES
GIVEN A BANQUET

Parents Hosts to Players and Teachers.

Richwood, O., April 4.—[Special.]—A number of parents gave a banquet Friday evening for the Richwood high school basketball boys and girls with their teachers and superintendent and Mrs. William Boeman; Mr. and Mrs. W. T. White; the referee, Ray Griffith; assistant, Pearl Durnell; and the time keeper, Howell Jones. Miss Olive Huffer was the only out-of-town guest. Howell Jones acted as toastmaster and a number of impromptu talks were made.

The Carpe Diem club meets with Mrs. L. J. McCoy Thursday afternoon, and enjoys a Japanese tea and a social afternoon. Group No. 2 gave a musical program.

Brea Camp, No. 7067, Royal Neighbors, has surrendered its charter, eight members of the local temple transferring to Loyalty camp at Marion, and members to other camps. Wednesday afternoon the following ladies went to Marion and looked after the business of the transfer: Mrs. Edward Meade, Mrs. Perry Imbody, Mrs. Scott Hana-walt, Mrs. John Lamb, Mrs. Mary Corbett. They enjoyed the business meeting of Loyalty camp and a social hour. A beautiful silk flag was presented Loyalty camp by the ladies of Richwood.

The Jackson rural high school, graduating class, will stage a four-act rural drama, Thursday and Friday evenings, April 6 and 7, at the Essex M. P. church. The class is composed of Kenneth Elliott, Irvin McDaniel, Edna Kater, Beryl Mettler, Margaret Mouson, Fern Parish, and Daisy Swartz.

Wednesday afternoon, Mrs. Frank Adams and Mrs. Mito Stronholder were hostesses to the members of the Presbyterian Ladies' Aid society.

Mr. and Mrs. Isaac Miller, who have lived in Richwood for the past forty-five years and conducted a grocery store, have purchased a grocery store in Columbus. They had their opening last Saturday. Mr. and Mrs. Miller will soon move to Columbus.

Mr. and Mrs. Cecil Holycross are moving to Prospect, where Mr. Holycross is employed at the Gast grocery store.

"The Old Oaken Bucket," a rural drama is to be given on Thursday and Friday evening on April 6 and 7, 1922, by the members of Jackson Rural High school at the M. P. church at Essex, Ohio. Admission, adults 25c, children 15c—Adv. 1-c

Aviators say that every city and town, when seen from the air, has a distinctive color.

NEW BENSON STORE
OPENS FOR BUSINESS

Occupies Store Room at No. 178 West Center Street.

After the room which they now occupy at No. 178 west Center street, formerly occupied by M. Linman, had been entirely redecorated and remodeled, the Benson Clothing company opened for business last Saturday. The Benson Clothing company handles a complete line of men's furnishings, including hosiery, dachery, clothing, shoes and other articles of men's apparel. P. M. Benson, of Columbus, is the manager of the new store. The latest of window decorations have been secured and will be in place by the end of this week. New shelves with electric lights at the top of each row have been installed and the last of the new shoe cases is expected to arrive this week. Mr. and Mrs. Benson will make their future home in Marion.

CONTINUOUS SERVICE
TO THOSE MOVING

Uninterrupted Delivery May Be Had by Advance Notice.

If readers of the Star in Marion city who intend to change their residence will so advise this office by phone on the day previous to moving, we can arrange so that there will be no interruption in the daily delivery of the Star to their door.

When delivery is made through the postoffice, it is necessary that notice be given at least three days in advance to insure continuous delivery.

Phones Nos. 5151 and 2232, 102-17

CARDINGTON MAN DIES
AFTER LONG ILLNESS

Funeral of Christian Kientz Held Today.

Cardington, O., April 4.—[Special.]—Christian Kientz, died at his home, Friday evening, following an illness of many months. He was aged seventy-five years, and was born in Germany, coming to this country when a young man. The widow and three sons, Charles, at home, William and John, of Pike Bluff, Arkansas, survive. The funeral services were held today, Rev. Mr. Lauffer, officiating.

Mrs. Melvin McKinney, living several miles east of town, died Friday afternoon, from the grip and complications. She was aged about sixty years. The husband, son and daughter survive. The funeral services were held from Cardington M.

E. church, of which she was a member, this afternoon, Rev. J. P. Wisman officiating.

The Misses Cora and Gertrude Mack have been ill for two weeks with the grip.

The Music and Drama club gave

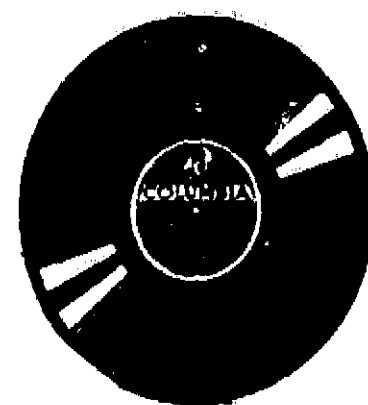

its fourth and last entertainment, Thursday evening. Misses Claudia and Doris Peck, with their guests, Miss Tripper, of Auburn, Indiana, and Miss Boyles, of Sistriville, West Virginia, gave a varied program that was very pleasing. A farce, "The

Sleeping Car" was given by several members of the club and furnished much amusement. Refreshments were served.

Mrs. M. F. Lauffer is seriously ill. Mr. and Mrs. Barth has moved into the Sarah Nichols property.

CENTENNIAL DINNER TONIGHT AT TRINITY
Reminiscences of Early Marion To Be Feature.
PREPARE SPECIAL MUSICAL PROGRAM
Relatives of Marion's Founder and Other Pioneers To Speak.
J. W. Jacoby Chairman.

Reminiscences of the early days of Marion by relatives of Eber Baker, founder of Marion, and other pioneers, will feature a centennial dinner under the auspices of the Marion Chamber of Commerce this evening at 6 o'clock at Trinity Baptist church. A special musical program also has been prepared for the occasion.
It was 100 years ago yesterday that the plot for the original town of Marion was formally accepted and other events of an historic nature took place during this week a century ago. Because of these dates and due to the fact that the formal observance of Marion's one-hundredth birthday is not to take place until July, it was decided to have the dinner this evening to replace the regular weekly luncheon of the chamber of commerce scheduled for tomorrow.
Mrs. Harriet E. Runyan, ninety years old and a step-daughter of Eber Baker, and Mrs. E. G. Allen, more than eighty years old and a granddaughter of Mr. Baker, together with a number of descendants of other pioneers have been invited to be honor guests at the dinner and tell of the early days of the city. J. Wilbur Jacoby, chairman of the general centennial committee, will be chairman of the evening and Ernest G. Carl will have charge of the music.

LLOYD GEORGE WINS VICTORY

Continued from Page One.
posed to effect this, except that it might be attained by some form of international cooperation and pressure.
Received with Favor.
Lloyd George's speech outlining the objects of the Geneva conference was favorably received by the press and belief was expressed that if the program could be carried out, important steps would have been taken towards restoration.
In addition to the Lloyd George speech, there were two other important developments affecting the Geneva conference. Premier Poincaré, who has announced that he will not attend the conference, received a vote of confidence in the French chamber of deputies. The Russian soviet delegation in Berlin conferred with the German government and is understood to have entered into an agreement for common action.

SWINDLE ORGY IS UNCOVERED

Continued from Page One.
draws near its close.
Various Schemes Used.
As the inquiries in the Nicholson case have learned conditions, the "confidence" men duke those with whom they make acquaintance according to any scheme which may best suit the character of the person whom they intend to rob.
In the so-called "wire tapping" game, there is sometimes not even a pretense at tapping the wires over which victims are told the information as to racing results is being carried, so that "sure thing" bets can be placed.
It is an intended victim seems to know anything actually about horse racing, he is tried out, perhaps, on stock market schemes. If he is not posted as to stock market operations, the swindlers may reach him in that direction, persuade him into stock transactions, purchase anything which eventually requires the posting of a considerable sum of money. Once he has a large amount ready on his person for whatever the deal may be, the story is ended. The "confidence" gang gets it.
One ingenious scheme, which is declared to have been worked successfully, involves a "lost" pocketbook. The "confidence" man who is breaking the ice gets into the good graces of a visitor, perhaps becomes acquainted on the train going south. For it is declared, representatives of these hard travelers, haunt the good hotels, and make contact by every variety of respectable approach.
The visitor picked to be the loser goes for a stroll with his pleasant "acquaintance," and as they walk—led of course by the "confidence" man—they see a wallet lying on the ground. The body will be in charge of the funeral home. The body will be in charge of the funeral home. The body will be in charge of the funeral home.

and a bit of paper described in what obviously is code.
While they are wondering over it, and continuing on their way considering its disposition, "con" men No. 2 makes his appearance in the guise of a worried stranger, looking everywhere as though he had lost something valuable. He is hailed by his accomplice, who accompanies the victim, and explains in a distracted way that he has lost a pocketbook. The finders naturally ask for a description.
"Why," he says, "it had perhaps \$150 or \$175 in it, and a \$10.00 bond, and a code. I don't mind the money or the bond. But I'm frantic over losing that code."
Owner Is Grateful.
Well, the scheme progresses to its inevitable conclusion. The finders restore the "lost" wallet. The grateful owner presses the cash contained in it upon the finders. But before he leaves, the "con" man who has been walking with the "mark" makes an interested inquiry about the code. It develops, according to the owner's explanation, that by that code, he gets secret instructions by which his employers, a great syndicate handling stock, buy with unerring precision stocks regarding the trend of which they have full private information.
Of course "con" man No. 1 urges "con" man No. 2 to let No. 1 and the dupe "in on a little deal." Mild protest from No. 2 that he would not dare, quite irregular, etc., etc. But his natural gratitude overcomes his scruples. Probably "con" man No. 1 is the first to put up a sum for a preliminary try of the system, but in any event, they let the victim win a little, tell him his stock has gone up, even gamble \$100 or \$200 which they have given him, representing his "gain" on his original investment. Then, merely as a matter of business, to carry on more extensive operations, for which the victim is now ready, they point out that he ought to deposit a substantial sum to cover possible losses.
The "tipster" explains they are strangers, and after all, he has no other means of assuring that the victim is able to meet a possible loss. They get the dupe to post as much as he will stand, as a guarantee of his good faith—certain, and end of the show.
This is one of the methods the Cleveland investigators came across in their efforts to trace through its devious course the \$20,000 taken from their client. It had nothing to do with their case, but is illustrative, according to reliable information, of the queer tracks they have crossed in pushing their inquiry.
In other words, they are convinced that in seeking out the men who defrauded the Ohioan, they have struck into the heart of the "confidence" men's present field of operations.
Swindlers are using aeroplanes as a means of conveyance between Florida points and Havana in connection with their schemes. They also have them handy for flight, and it was pointed out by one agent that "a little trip of a few minutes to Cuba is nothing in their young lives." For that reason the Ohio case has been handled with all the wariness, of which the fact that the inquiry has been under way for thirty days without earlier public notice of its program, is evidence. It is just coming to light now that arrests are believed imminent.

ARMY OFFICER SHOT TO DEATH
Continued from Page One.
According to Dick Judge Day found his wife struggling in the arms of the army officer. He did not attempt to shoot him but struck at him with the revolver which he carried.
The tragedy came as the aftermath of a card party held last night at the Day home. There were several guests, all close friends of the family. Lieutenant Colonel Beck was among the party and was a guest at the Day home, having come here from the flying field at Fort Sill.
The party broke up about 7 o'clock and Judge Day offered to take the guests to their homes in his motorcar.
His left Beck and Mrs. Day alone in the house, according to the statement. When he returned, Judge Day stepped upon the porch and looking through the curtains saw his wife struggling in the embrace of Beck. He at once burst into the house, rushed upstairs and secured his revolver.
He then confronted Beck in the living room, where he was still struggling with Mrs. Day and striking at Beck with the revolver, held in his hand, according to Dick's statement, saw Beck fall as the revolver exploded.
"I didn't mean to shoot him," was Day's statement.
"He was attacking my wife and I struck him over the head with the gun. The shot was accidental."
Prominent in Washington.
Lieutenant Colonel Beck was one of the first four commanding officers of the United States Army Corps of Engineers who had been in the flying service since. He was prominently known in Washington circles, and according to reports, his wife died at Washington about a year ago.
Judge Day is the president of the Pousness Producing and Refining company and vice president of the Continental Asphalt and Paving company.
Lieutenant Colonel Beck had frequently visited his home here and was an intimate friend of the family. He had flown to this city yesterday in a plane from Fort Sill to attend the card party.
The commanding officer at Fort Sill was notified of the shooting but as yet no action has been taken in regard to the case.
Judge Day is fifty years old, but his wife is several years younger. They have one daughter, who is a student at the University of Oklahoma.
According to police, Beck's death was caused by the shot, which Judge Day asserts was accidentally fired, and not from the other wounds upon his head. Beck, according to the story given the police, launched a blow first at Day. The two men then closed. Judge Day clubbed the officer over the head with the revolver.

RUSSIA HANDS ALLIES TERMS

Continued from Page One.
commissar for foreign affairs, who heads the political section of the delegation, was asked if the Russians were not afraid of assassination.
Reds Attack Japs.
Tokyo, April 4.—Despite clashes between the red forces of the China republic and Japanese forces in Siberia in which eighty reds were killed, the conference at Dairen has re-opened, said a despatch received here, indicated a complete agreement has been reached between Japan and the Far East republic. This agreement is reported under consideration at the foreign office here now.
Advices received today confirmed reports of a clash between China forces and those of Japan. These advices stated that the red forces attacked the Japanese Sunday and were repulsed, with eighty casualties. That night, they attacked again and were repulsed the second time. The casualties of the battle were not given in reports received here.

CONGRESS COLD ON MINE PLAN

Continued from Page One.
went into effect at midnight last night on all coal moving into Canada.
As a result not a pound of bituminous coal is now crossing the Niagara river.
Leaders Satisfied.
Columbus, April 4.—Plainly satisfied with the situation, leaders of the Ohio United Mine Workers here today stated that there is no change in the strike condition throughout the state. These officials expressed belief that the quietude prevailing in all the mining districts of the Buckeye state will continue.
Declaring that, in view of absence of demand for coal, they would gain nothing by trying to run their mines, operators announced they do not expect to resume operations now.
Opening of the lake trade season finds a large surplus of this fuel on the docks. There is substantially no demand for domestic coal, it is said.
For the first time coal is being offered for sale in West Virginia at prices below the cost of mining Ohio coal, according to southern Ohio operators.

BIRTHS
A daughter was born Monday to Mr. and Mrs. John J. Mize, of No. 928 Kenton avenue.

AMY OFFICER SHOT TO DEATH
Continued from Page One.
Washington, April 4.—Coal operators who declare that they can not confer with union miners to negotiate a new wage scale because of fear of the anti-trust laws are shunning the public.
Lewis, president of the United Mine Workers of America, declared today before the house labor committee during its investigation of the nationwide coal strike.
Lewis told the committee that the attorney general had rendered an opinion to President Harding, who in turn transmitted it to the operators, that such a conference would not be unlawful.
Only Three Working.
Washington, April 4.—Only three of the large non-union mines in Marshall county were working today. Non-union miners were idle operators said, on account of no pairs, but miners say they are on strike.
Striking union miners in Preston county marched to Ironton, where they applied to working non-union men to strike, with some success.
Public Must Pay, Says Borah.
Washington, April 4.—The declaration by Senator Borah, of Idaho, that "public opinion will not long permit the men who work in the mines to control the industry any more than it will allow the men who own the mines to dictate the conditions under which their employees work," opened a debate in the senate this afternoon upon the coal strike.
"There is a third party," the public, to be considered in the situation confronting the country, for it is the public which in the long run must bear whatever economic loss resulting from the strike," Borah said.
"The public will bear it in an increase in coal prices."

CONGRESS COLD ON MINE PLAN
Continued from Page One.
went into effect at midnight last night on all coal moving into Canada.
As a result not a pound of bituminous coal is now crossing the Niagara river.
Leaders Satisfied.
Columbus, April 4.—Plainly satisfied with the situation, leaders of the Ohio United Mine Workers here today stated that there is no change in the strike condition throughout the state. These officials expressed belief that the quietude prevailing in all the mining districts of the Buckeye state will continue.
Declaring that, in view of absence of demand for coal, they would gain nothing by trying to run their mines, operators announced they do not expect to resume operations now.
Opening of the lake trade season finds a large surplus of this fuel on the docks. There is substantially no demand for domestic coal, it is said.
For the first time coal is being offered for sale in West Virginia at prices below the cost of mining Ohio coal, according to southern Ohio operators.

RUSSIA HANDS ALLIES TERMS

Continued from Page One.
commissar for foreign affairs, who heads the political section of the delegation, was asked if the Russians were not afraid of assassination.
Reds Attack Japs.
Tokyo, April 4.—Despite clashes between the red forces of the China republic and Japanese forces in Siberia in which eighty reds were killed, the conference at Dairen has re-opened, said a despatch received here, indicated a complete agreement has been reached between Japan and the Far East republic. This agreement is reported under consideration at the foreign office here now.
Advices received today confirmed reports of a clash between China forces and those of Japan. These advices stated that the red forces attacked the Japanese Sunday and were repulsed, with eighty casualties. That night, they attacked again and were repulsed the second time. The casualties of the battle were not given in reports received here.

ance of work by miners in certain states was explained in this fashion: Union officials are not opposed to continuance of work by negro miners in Alabama, who had long been idle because of difficulties in the field. They likewise, it was stated, are not opposed to union men working in West Virginia, storm zone of unionism where many men have long been out of work.
Tennessee miners are considered automatically removed from the union by their action in continuing work, because, it was explained, the United Mine Workers are not a party to the conflict in force there.
Western Kentucky miners are authorized to continue work because of an overruling contract there which has a year to run.

THE SICK
Mrs. T. F. Englert, of Herman street, underwent an operation this morning at the City hospital.
Charles McElroy, son of E. L. McElroy, is quite ill with throat and lung trouble.

FAMOUS LINER IS FIRE SWEEPED
Continued from Page One.
location.
Soon after the flames were discovered all available men and apparatus at the plant of the Marion and Lang Disdock company, whose pier the Mongolia was being overhauled, were summoned to fight the blaze. Despite their efforts the flames continued unabated and a second alarm brought out the local fire department.
In addition aid was asked of New York and two fire boats responded and soon were at work pouring tons of water into the burning vessel.
A number of other ships were at adjacent docks but were given no notice by the combined fire companies at the scene and were said to be in danger. Extra details of police were called out to clear the way in the vicinity of the dock. The news that a ship was also soon began to draw those and to the pier.
Try To Save Tank.
Efforts of fire boats and hundreds of men summoned to attack the blaze were centered in keeping the huge tank from spilling into a huge tank containing 260,000 gallons of oil. The tank ran almost the entire length of the ship and the ignition would mean instant doom for the Mongolia, which is an oil burner.
Flames were flooding the entire compartment and the danger of an explosion was imminent. Not thirty feet away is the Mongolia's sister ship, the Manchuria. The ship has a tonnage of 11,600. The fire is believed to have been caused from a spark from an acetylene burner falling into pile of debris.
Fire Extinguished.
New York, April 4.—Fire which swept the refrigerating plant of the former United States army transport, Mongolia, in a Hoboken, New Jersey, drydock, was extinguished this afternoon.
Hundreds of workmen were engaged in converting the transport into a passenger ship, but all managed to escape from the vessel which was quickly enveloped in a dense cloud of smoke.
The blaze was just off the engine room and the firemen concentrated their efforts to prevent the flames from spreading into the tanks containing 175,000 gallons of oil just beneath the refrigerating plant. Four fire boats aided the firemen in fighting the blaze.

HOSPITAL BOARD ALLOWS ESTIMATES
Amounting to \$3,130.05 for Work on Hospital.
Estimates amounting to \$3,130.05 on repairing the City hospital and bills amounting to \$76.16 were allowed at a meeting of the board of hospital commissioners at the office of the mayor Monday afternoon. Joseph Hindley and L. L. Lamborn were present with the mayor presiding, while C. L. Justice and J. P. Prindergast were the absent members.
Vernon Hedding, of Mansfield, the architect for the repairing of the hospital, met with the board. In explanation of the delay in completing the work at the hospital the architect explained that it was the result of some of the minor contracts being delayed on account of fixtures and supplies not arriving. He reported that the elevator shaft was completed and the elevator has been ordered and can be installed within a few days after its arrival and that the work will be rushed as rapidly as possible. This explanation was made as a result of action on the part of the city council in determining the cause for the slow progress. Dr. Fillmore Young met with the board in regard to equipment necessary for the hospital.

Have you ever sat astride living power and had it carry you off, like a winged Mercury, over road and lane, up hill and down at any gait you choose?
Picture such a ride, early some spring morning when the roads are clear and the mist is still drifting over the clean country landscape with the sun coming up over the hills far ahead. With your motor singing a soft, cozy hum, you thoroughly enjoy the scenery and breathe the pure, invigorating country air.
Such a jaunt is made particularly enjoyable when you're mounted on a Harley-Davidson, "World's Champion Motorcycle."
Come in and take a ride on the

SCHOOL BOARD VOTES TO BORROW \$100,000

To Meet Payrolls and Expenses for Rest of Year.

REPORT NEARLY EVERY FUND IS OVERDRAWN

Clerk States Payrolls Amounting to \$96,000 Must Be Met. Urge Cooperative Course.

A resolution authorizing the borrowing of \$100,000 to meet teachers' pay rolls and other expenses for the remainder of the year was passed at a meeting of the board of education at Harding High school last night. Liquidators and bills were approved and permission to use the auditorium of the Central Junior High school for the display of carriages during the centennial was given. A delegation from the Retail Merchants' bureau and the Ad club voted to support the board's action.

Reports Funds Overdrawn. Clerk F. T. Smart reported that practically every fund was overdrawn and that three teachers' payrolls amounting to \$31,000, January payrolls amounting to \$15,000 and current expenses had to be met. A report of the finances of the board will be made to them this week by the clerk, Dr. Daniel F. Ridenhouse, pastor of the First Baptist church in Columbus, according to a resolution passed at the meeting. He will be invited to deliver the commencement address.

The committee from the Retail Merchants' bureau and the Marion Ad club was composed of Charles W. McClain, J. E. Phillips, George E. Frick, Guy H. Hulse, J. H. Rowlings, C. E. Buttz and W. L. Warner. The committee presented a plan of cooperative salesmanship training to the board of education, declaring that such training would raise the standards of the salespeople in Marion. Action on the proposed course and the amount of credit to be given for it was left to the principal of Harding High school. The board officer submitted his report.

VERNON HEIGHTS PUPILS WILL STAGE TWO PLAYS
At Central Auditorium Thursday and Friday.

Much interest is centered in the two short plays which the Vernon Heights Junior High-school members are staging next Thursday and Friday evenings at the Central High-school auditorium on west Center street. The proceeds from the two entertainments will go towards a fund for the purchase of pictures and decorations for the Vernon Heights building.

The first offering, "Une Affaire Comptable," is a one-act play in French. It will last only five minutes. The piece will be staged and acted by Wilson H. Dumble's seventh year French students at Vernon Heights school. Those taking part are Joseph Rimmer, William H. Rapp, Melvin Minshall, Oscar Hittenranch, Frederick Smith, Jay Sullivan and Virginia Smith.

The chief attraction of the even-

ing, however, will be a two-act comedy with music, "Little Ephraim's Summer Boarders." This play will be acted by members of the ninth grade at Vernon Heights school, and also has been staged by Mr. Dumble. It is to be given in English. The music was composed and introduced by the ninth grade girls from "Honey" and "Jack O'Lantern." A chorus composed of girls from the eighth grade at the school will sing and dance.

The evening play, "The Little Ephraim's Summer Boarders," is a two-act comedy with music, "Little Ephraim's Summer Boarders." This play will be acted by members of the ninth grade at Vernon Heights school, and also has been staged by Mr. Dumble. It is to be given in English. The music was composed and introduced by the ninth grade girls from "Honey" and "Jack O'Lantern." A chorus composed of girls from the eighth grade at the school will sing and dance.

The evening play, "The Little Ephraim's Summer Boarders," is a two-act comedy with music, "Little Ephraim's Summer Boarders." This play will be acted by members of the ninth grade at Vernon Heights school, and also has been staged by Mr. Dumble. It is to be given in English. The music was composed and introduced by the ninth grade girls from "Honey" and "Jack O'Lantern." A chorus composed of girls from the eighth grade at the school will sing and dance.

Members of the chorus are Gertrude Smith, Katherine and Margaret Lush, Doris Virginia Springer, Daria Peters and Phyllis Wood.

MRS. JAMES BALLENGER DIES AT CALEDONIA

Funeral Will Be Held Thursday Morning.

Caledonia, O., April 4. —(Special I) —Mrs. Johanna Ballenger died this morning at 4:45 o'clock at her home at Caledonia from pneumonia. She had not been well for some time, but her condition had been critical only one day.

Mrs. Ballenger was almost seventy years of age, having been born in Ireland, April 15, 1852, a daughter of Mr. and Mrs. John Dowling. She had resided in Caledonia sixty-five years and was a member of the Catholic church. Her husband, James Ballenger, died ten years ago. Three children survive. They are Thomas, of Marion; Charles, of Bucyrus, and James, of Toledo. She also leaves a sister, Mrs. Winifred Christie, of Marion.

The funeral will be held Thursday morning at 9 o'clock at the Catholic church here. Rev. Father John Brinker, of Marion, officiating. Interment will be made in St. Mary's cemetery.

Lots of men go short on fiction because it is stranger than truth.

No need to Wash Curtains at home Now

Curtains are gently patted down—no pin holes or hook marks to mar them.

Edges and scallops are finished smoothly and perfectly true.

Pinning curtains to the floor, stretching and pulling them over hooks, curtains with crooked corners—you needn't be bothered with any of these things this spring if you'll just call us.
